Fictional orders. Validated input. Traceable calculations.

DEMONSTRATION ONLY - ALL ORDERS ARE FICTIONAL

Daily order summary / 3 validated orders / Currency: GBP

ORDER	ITEM	QTY	UNIT / GBP	TOTAL / GBP
DEMO-001	Notebook	2	4.50	9.00
DEMO-002	Desk organiser	1	12.95	12.95
DEMO-003	Pen set	3	3.50	10.50

TOTAL ORDER VALUE

GBP 32.45

How the totals are calculated

Each quantity is multiplied by its original unit price using decimal arithmetic. Each line is rounded to two decimals using ROUND_HALF_UP; the report total is the sum of those rounded lines. Unit prices retain their supplied precision. Tax, shipping, discounts and currency conversion are not included.

This is an original conversion demonstration. It does not connect to email, schedule jobs or track files across runs. See the included README for the input rules and run instructions.
